

ORNELLA

ITS APPEARANCE IS MARKEDLY INDUSTRIAL BUT ITS MANUFACTURING PROCESS IS COMPLETELY HANDCRAFTED

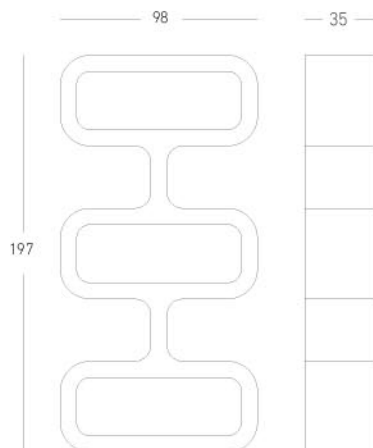

REINFORCED INTERNAL STRUCTURE

THE MANUFACTURING PROCESS INVOLVES A FIRST PHASE OF PLOTTING. THEN WE HAVE MADE A WELDING WHICH, ADDING ALL ITS PARTS, MEASURES 26'7 METERS EXACTLY

IT IS COMPLETELY HOLLOW INSIDE, SO IT IS REALLY LIGHT IN COMPARISON WITH THE VOLUME IT HAS.

IT IS MADE OF WELDABLE ALUMINIUM SHEET MEASURING 5mm. AT THE FRONT AND 3mm. ON THE SIDES

IN THE FINAL STAGE OF MANUFACTURING WE SOLDER THE IRON OUT AND GIVE IT A BRUSHED FINISH THAT GIVES THE PIECE A SPARKLING APPEARANCE.
